

## **BDO ACCOUNTANTS**

Having used Goals A+N in the past, BDO appointed Goals A+N to partner them in our office relocation to our new Corporate offices at 12 Greek Street, Brisbane.

Goals A+N Project Team were engaged 6 months prior to the physical relocation to assist with the pre planning, storage allocation and other planning activities associated with the move.

The relocation between the three CBD buildings consisted of approximately 480 staff including their personal effects, computers, filing and general office furniture over three staged weekends.

The move was meticulously planned with pre packaging and moving activities commencing during the week prior to each stage of the relocation to ensure that our staff continued unhindered during their normal working day. The Teams were well organised, working to strict time schedules and adhering to building access restrictions. We were specifically impressed with the IT component, working alongside our own IT members, and ensuring that all components were audited prior to the move, placed and re commissioned in a methodical and professional manner.

On completion of the move Goals A+N were also engaged to catalogue and relocate all excess furniture from all sites to their storage for future re utilisation.

The whole move was professionally executed and would like to thank Chris, Jeremy and their Team for a job well done and would have no hesitation in recommending Goals A+N to any other prospective company moving. We look forward to working with them once again when our next stage of relocations commence.

Yours sincerely

Sandra Yost

Director of Facilities
